**Workshop Class for Teens*: a new class for dancers who want more challenge, more dance with an add an extra contemporary class. Contemporary Dance is changing and moving fast in styles. This class will offer many styles of movement and choreography skills. *The Workshop Class* is ideal for students becoming more serious about dance (i.e. want to major in dance in high school or college), and is purely a techniques add-on; dancers are required to take their regular Contemporary classes if they wish to enroll in *Workshop Class*.
